UNIVERSITY OF MINNESOTA

McNeal Hall
Building Emergency Plan

Building #338
1985 BUFORD AVENUE
ST. PAUL, MN  55108

No central information desk in the building.
See Staff in 32 McNeal for assistance or call
Julie Hillman at 612-978-7129.

NEVER ENDANGER YOUR PERSONAL SAFETY

Building evacuation is mandatory whenever a fire alarm sounds.
Every building occupant is responsible for knowing these procedures.

Updated on: 11/10/2017

Scope

This plan has been prepared to ensure orderly and complete evacuation of your building whenever an emergency occurs, or the alarm sounds.

The primary objectives of this building plan are to ensure that:

1. Everyone leaves the building safely.
2. A procedure to safely evacuate individuals who cannot negotiate stairs is in place.
3. Building occupants are accounted for after an emergency evacuation.
4. Personnel are selected among building occupants, with functions to ensure plan objectives are met.
5. For the purpose of this plan, the following are emergencies for which it will be necessary to evacuate the building:
   - Fire.
   - Explosion.
   - Bomb threats.
   - Release of hazardous chemical substances, in quantities or toxicity, which threaten human health (depends on chemical whether building tenants will need to evacuate or take shelter).
   - Building air contamination

The following are emergencies for which it will be necessary to seek shelter in the building’s designated shelter:

- Severe weather
- Release of hazardous chemical substances, in quantities or toxicity, which threaten human health (depends on chemical whether building tenants will need to evacuate or take shelter).

The plan will be updated at least annually. The plan will be revised by members of the building’s safety committee, which is comprised of staff who have volunteered to participate in the planning process.

Key Words & Definitions

Work Area Rep: checks department rooms and informs all people in work area of evacuation. Reports to Floor Monitor.

Floor Monitor: monitors corridors on assigned floor and ensures personnel are moving toward exits; checks bathrooms, assists with safe rooms. Reports to Emergency Coordinator.

Emergency Coordinator: collects information on who may still be in the building and who needs help in safe rooms. Communicates with emergency personnel.

Area of Refuge: regular room or area that is easily accessible to individuals with limited mobility, may have closeable, unlocked doors.

Designated Shelter: provides shelter in the building during severe weather or other emergency.

Evacuation Assembly Point: assigned meeting location outside of building in the event of evacuation.

FM: Facilities Management
General Building Evacuation Procedure

At the sound of the emergency alarm, it is the responsibility of all building occupants to evacuate immediately and proceed to predetermined assembly points, away from the building.

Building occupants are also responsible for ensuring that their visitors/customers to their department follow the evacuation procedure described herein, and leave the building along with all other occupants.

Faculty and instructors are responsible for dismissing their classes, and directing students to leave the building by the nearest building exit upon hearing the building alarm or being notified of an emergency.

Designated essential personnel needed to continue or shut down critical operations, while an evacuation is underway, are responsible for recognizing and/or determining when to abandon the operation and evacuate themselves.

Contract workers will be made familiar with the procedures outlined herein, and are expected to leave the building when the alarm sounds.

Evacuation Instructions

Whenever you hear the building alarm or are informed of a general building emergency:

- Do not panic.
- Do not ignore the alarm.
- Leave the building immediately, in an orderly fashion.
- Do not use elevators.
- Meetings in session must be dismissed and students directed to leave.
- Follow quickest evacuation route from where you are (see posted floor evacuation diagram/map).
- Do not go back to your office area for any reason.
- Proceed to the designated emergency assembly point for your area. If the designated assembly point/area is unsafe or blocked due to the emergency, proceed to the alternate assembly point.
- Report to your Work Area Rep at the assembly point to be checked off as having evacuated safely; also report any knowledge you may have of missing persons.
- Return to the building only after emergency officials or building monitors give the all-clear signal. Silencing the alarm doesn't mean the emergency is over.

Chemical Spill Lab Evacuation instructions

- Notify other lab occupants in immediate area
- Everyone who can safely leave, should leave lab away from spill
- While exiting, close double doors leading into other labs
- A lab occupant leaving lab should immediately head to area of refuge (near freight elevator on each floor) or call 911
- Notify operator of spill and location
- Operator can remotely activate fire alarm and send emergency personnel
- Evacuate building according to general evacuation procedures

Radiation Incident Instructions

- Occupants should call 911 in the following situations:
  o if you encounter a radiation incident
  o if you are unsure as to whether or not you are at a radiation incident
- The following information is needed:
Report that you have a radiation incident
- Building Name
- Room Number
- Brief Description of the incident
- Your name and a telephone number where you can be reached

- DO NOT LEAVE. Remain at the incident and near the phone
- All individuals must be surveyed prior to being released

Active Threat Instructions: Run, Hide, Fight

The guidelines below should be considered during this type of emergency, but your specific situation may require deviation from these suggestions.

Run:
- Have an escape route and plan in mind.
- Leave your belongings behind.
- Keep your hands visible.
- Run to a place of refuge, well beyond the norm.

Hide:
- If running is not possible, hide.
- Lock and barricade doors, shut off lights
- Remain silent, yet vigilant
- Avoid huddling together

Fight:
- Fighting is a last resort, use only when your life is in imminent danger.
- Use improvised weapons, i.e. chair, fire extinguisher.
- Attempt to incapacitate the active threat.
- There is strength in numbers; work together against the active threat.

Calling 9-1-1:
- Call ONLY if safe and with information about the active threat
- Clarify you are on the University of Minnesota campus and where you are
- Give the location of the active threat(s)
- Provide physical description of active threat(s)
- Describe type of weapons held by the active threat(s)
- Notify the dispatcher of victims and their location

How to React When Law Enforcement Arrives:
- Remain calm; follow officers’ instructions
- Keep your hands up and out in front of you, assuring your hand are empty
- Keep hands visible at all times
- Avoid making quick movements towards officers such as attempting to hold on to them for safety
- Avoid pointing, screaming and/or yelling
- Move quickly towards the nearest exit or where directed to by police
- Do not stop to ask officers for help or directions when evacuating

Once in a Safe Place:
Emergency responders need to account for everyone. Once you are in a safe place, DO NOT LEAVE. As the event unfolds and is better understood, law enforcement will provide additional instructions as to where you should be or when you will be able to leave. Please be patient. Your safety is our most important concern.
Building Emergency Instructions

In the event of a loss of power, water leak or flood, elevator failure or other building emergency:

- Between 6:30am-5:00pm, call 612-624-2900, which is the Facilities Management Call Center.
- For after hour emergencies, call 612-626-3680, which is the Public Safety Emergency Communication Center.
- Notify staff who are located near the emergency so they may take appropriate precautions.
- Follow evacuation instructions, if evacuation is necessary.

Shelter Emergency Instructions

- In the event of notification of severe weather, safely discontinue work and go to the nearest designated safe shelter location.
- In the event of the release of hazardous chemical substances which threaten human health and the immediate lab needs to evacuate, but other building occupants are safe, please follow the steps below:
  - Notify other lab occupants in immediate area
  - Everyone who can safely leave, should leave lab away from spill
  - While exiting, close double doors leading into other labs
  - Contact DEHS according to established lab safety protocols

Emergency Evacuation Personnel

For the purpose of this plan, emergency evacuation personnel and their alternates are regular employees who have been selected to ensure that building evacuation is carried out as planned, evacuated building occupants are directed to assigned assembly points where they will be accounted for, and persons needing assistance to evacuate are attended to.

Building emergency evacuation personnel and their alternates shall be selected among building occupants, and on a voluntary basis.

Below is a list of building emergency evacuation personnel, and their corresponding duties.

PLEASE NOTE: Assigned duties are to be carried out only if you are not putting yourself in danger or risking your personal safety.

Emergency Evacuation Personnel Duties

<table>
<thead>
<tr>
<th>Personnel</th>
<th>Duties</th>
</tr>
</thead>
<tbody>
<tr>
<td>Work Area Reps.</td>
<td>• Have a general awareness of all current occupants, including part time and student employees in immediate work area.</td>
</tr>
<tr>
<td></td>
<td>• Inform area occupants to leave the building in cases where there is word of an emergency but building alarm didn't sound.</td>
</tr>
<tr>
<td></td>
<td>• Inform occupants of their duty to report to your assembly point.</td>
</tr>
<tr>
<td></td>
<td>• Assist and/or direct occupants with limited mobility either to safe rooms, or down stairs if able to negotiate stairway.</td>
</tr>
<tr>
<td></td>
<td>• Leave the building as soon as possible and go to your assembly area.</td>
</tr>
<tr>
<td></td>
<td>• Check off co-workers who safely reported to assembly point from occupant list.</td>
</tr>
<tr>
<td></td>
<td>• Collect information on missing personnel known, or suspected to still be in the building, and report to floor monitor or emergency personnel.</td>
</tr>
</tbody>
</table>
Emergency Coordinators
- Monitor corridors on assigned floor and ensure personnel are moving toward exits.
- Check restrooms on assigned floor to ensure they have been evacuated.
- Make sure fire doors on enclosed stairways and exits are closed and not blocked open.
- Assist and/or direct occupants with limited mobility, either to safe rooms, or down stairs if able to negotiate stairway.
- Leave the building as soon as possible and ensure assigned entryway is being monitored. Report presence of anyone still on your floor to Emergency Coordinator, or directly to Fire Dept.
- Prevent re-entry into the building until emergency responders or the emergency coordinator announces the all-clear signal.

On Scene Police Officers
- Collect information on building occupants known or suspected to still be in building from Floor Monitors and/or Work Area Reps.
- Meet emergency responders at building entrance.
- Report information on occupants needing assistance to evacuate and other personnel suspected to still be in building to emergency responders or On Scene Commander.
- Transmit the All-Clear signal to floor monitors or other building emergency evacuation personnel.
- Conduct post emergency meeting if necessary.

- Assist emergency responders from the fire department in gaining access to building as needed.
- Help secure building and prevent re-entry.
- Maintain communication between emergency responders and University officials.

Procedure for Persons Needing Assistance to Evacuate

Any person unable to use stairs, or need assistance to evacuate, should proceed to the nearest designated “area of refuge” or remain in his/her office if safe. Emergency evacuation personnel will check “area of refuge”, and ensure emergency response and rescue personnel are notified if someone has taken refuge there. They will also report any person taking refuge in offices in their areas.

Building “Areas of Refuge”

Reasonably “areas of refuge”, unless otherwise specified, are regular rooms that are easily accessible to individuals with limited mobility, are preferably equipped with a telephone and windows to the outside, and are monitored by emergency personnel (Work Areas Reps, Floor Monitors).

One area per floor is designated as an “area of refuge”. These areas are for use as a refuge by individuals who cannot negotiate stairs during evacuation, until trained emergency rescue personnel arrive to assist in their safe evacuation if circumstances warrant. These locations are near elevators which have emergency contact buttons in order to inform emergency personnel of your specific need and location.
Building Shelters

Every building should have at least one shelter designated for severe weather or other emergency which would require sheltering in place. See Evacuation and Shelter Maps located in all centrally scheduled classrooms and College of Design studio spaces.

Building Specific Information

Work Area Reps: (Updated annually by Building Safety Committee)

The following individuals have been selected as Work Area Reps, and will carry out their duties as listed in this plan under “Work Area Reps duties.” Redundant Work Area Reps have been selected for each area in the event the primary Work Area Rep is unavailable at the time of an emergency.

<table>
<thead>
<tr>

**Emergency Coordinators:**

The Primary Emergency Evacuation Coordinator and his/her alternates are listed below. In the event the primary coordinator is not available during an emergency, alternate coordinators will assume responsibility in the order in which they appear, and carry out their duties as described in this plan.

- **Primary:** Julie Hillman, cell: 612-978-7129, jhillman@umn.edu
- **Buford entrance:** Primary: Gayle Whitney, 612-624-4762, gwhitney@umn.edu
  Alternate: Mary Vincent, 612-624-4762, mvincent@umn.edu
- **Ground SE:** Primary: Shannon Sawyer, 612-626-3728, sawy0076@umn.edu
  Alternate: Jessica McCann 612-624-1721, mccann@umn.edu
- **Ground West:** Primary: Julie Hillman, 612-624-7721, jhillman@umn.edu
- **Upper exit West:** Primary: Steven Pearthree, 612-625-8771, spearthre@umn.edu

**Areas of Refuge**

The following are areas of refuge: Also locations identified on floor plans. See Evacuation and Shelter Maps located in all centrally scheduled classrooms and College of Design studio spaces.
<table>
<thead>
<tr>
<th>Floor #</th>
<th>Safe Areas</th>
</tr>
</thead>
<tbody>
<tr>

<td>Outside of central elevator, near room 237</td>
</tr>
<tr>
<td>3</td>
<td>Outside of central elevator, near room 337</td>
</tr>
<tr>
<td>4</td>
<td>Outside of central elevator, near room 437</td>
</tr>
</tbody>
</table>

**Designated Shelters**

The following are designated shelter locations. See Evacuation and Shelter Maps located in all centrally scheduled classrooms and College of Design studio spaces.

<table>
<thead>
<tr>
<th>Floor #</th>
<th>Designated Shelters</th>
</tr>
</thead>
<tbody>
<tr>
<td>B</td>
<td>Basement restrooms, hallway away from windows</td>
</tr>
<tr>
<td>G</td>
<td>Central hallways away from windows</td>
</tr>
</tbody>
</table>

**Evacuation Assembly Points**

When the alarm sounds, all occupants within the building must evacuate and report to an assigned evacuation assembly point. The evacuation assembly points for the building are designated by floor as listed below:

<table>
<thead>
<tr>
<th>Home Floor Number</th>
<th>Evacuation Assembly Point</th>
</tr>
</thead>
<tbody>
<tr>
<td>B, G &amp; 1</td>
<td>Intersection of Buford Avenue and Lower Buford Circle, grassy area</td>
</tr>
<tr>
<td>2, 3 &amp; 4</td>
<td>In the middle of Buford Circle and Lower Buford Circle</td>
</tr>
</tbody>
</table>

See attached “Evacuation Assembly Points Map” showing location of all building assigned assembly points on page 13.

**Assigned Building Entrances (Updated annually by Building Safety Committee)**

McNeal Hall has four main entrances. These entrances must be monitored during building evacuation to maximize building security, limit access to emergency personnel, and ensure unsuspecting employees and visitors do not enter the building, until the all-clear signal is given.

This task is delegated to the Emergency Coordinators. The Coordinators who are assigned to monitor these entrances will ensure to delegate this responsibility to someone else in case of their absence during an emergency.
<table>
<thead>
<tr>

</tr>
</tbody>
</table>

**AED Locations**

Automated External Defibrillators (AEDs) are for use when a person is having a cardiac event. AEDs are designed to be used by anyone, as the machine will guide users through the process of activating the unit.

AEDs are located in the following areas: Also locations identified on floor plans

<table>
<thead>
<tr>
<th>Floor #</th>
<th>Location</th>
</tr>
</thead>
<tbody>
<tr>

<td>Main atrium, near room 32</td>
</tr>
</tbody>
</table>

**Tone Alert Radios**

Tone Alert Radios (TARs) receive severe weather warnings, such as tornado warnings, and other emergency information via a radio frequency. Messages are sent from the University of Minnesota Public Safety Emergency Communications Center. A test message is sent at 1 p.m. the first Wednesday of every month.

Tone Alert Radios are located in the following areas: Also locations identified on floor plans

<table>

EMERGENCY PROCEDURES

State you are at the University of Minnesota, Building ______ , Room ______

Register for text alerts at TXT-U.umn.edu
Learn about safety guidelines, procedures, and resources at SAFE-U.umn.edu
Remain alert and aware of your surroundings at all times

FIRE
EVACUATE
- Activate nearest fire alarm
- Proceed to nearest exit
- Use stairs, not elevators
- Assist persons with disabilities/special needs
- Move to designated assembly areas
- Stay away from building entrance
- Account for individuals
- Re-enter area only when directed by authorities

SEVERE WEATHER
SEEK SHELTER
- Close all doors, excluding main entrance
- Move to lower floor, lower area of building, such as hallways, basements, and
- Rooms away from windows and glass
- Spread out floor or sit under doors, well-supported objects and away from broken glass
- If outdoors, and there is time to move into an indoor space, lie flat in normal
- Depression, ditch, or trench, and cover back of your head

MEDICAL EMERGENCY
STAY CLEAR
- If manual, do not pull fire alarm
- Do not touch, do not open
- Stay where emergency has occurred
- Break for action only when directed by authorities

BE PREPARED

SUSPICIOUS ACTIVITY
STAY CLEAR
- Always report unusual or suspicious activity
- to 911
- Do not touch or disturb
- Unidentified person only
- Assist belongings, assets, and
- Re-enter area only when directed by authorities

SAFE U

POWER OUTAGE
EVALUATE
- Never report unusual or suspicious activity
- Employment records, employment
- Headlights, and
- Assist belongings, assets, and
- Re-enter area only when directed by authorities

HAZARDOUS MATERIALS RELEASE
EVACUATE
- Area people to directory release area
- Avoid breathing vapor or dust
- Immediately seek shelter
- Avoid breathing vapor or dust
- Assist belongings, assets, and
- Re-enter area only when directed by authorities

HOSTILE INTRUDER
GET OUT, HIDE OUT, KEEP OUT
- If you know location of assailant, consider
- a safe route is available
- It is unsafe to escape
- Immediately seek shelter
- Sound alarm by locking or barricading door
- Using whatever means available
- Stay behind solid objects away from door
- Minimize noise that may draw attention to
- Your location, turn off lights, computers and
- Radio and put cell phones on vibrate
- Obey law enforcement direction

IN THE EVENT OF AN EMERGENCY:
- Visit umn.edu, watch for a TXT-U, check your email,
- and tune into the local media for updates.

NATURAL GAS LEAK
STAY CLEAR
- Area people to directory release area
- Avoid breathing vapor or dust
- Avoid breathing vapor or dust
- Assist belongings, assets, and
- Re-enter area only when directed by authorities

FIRE
- Open door only when you know it is safe. Feel the door for heat and open slowly.
- Activate nearest fire alarm and evacuate the building. See EMERGENCY EXIT PLAN above for location.
- Close door to contain fire.
- Rescue others who need help. Get out immediately. Don’t lose your life over your possessions.
- Never take the elevator. Use stairs only.
- CALL 911 – Give location
- Keep fire lanes, hydrants and walkways clear for emergency crews.

MEDICAL
- Stay with and keep the victim comfortable.
- Yell for help!
- Give first aid only if qualified.
- Call 911 – Tell operator:
  A. Location – building, floor, room.
  B. Phone number you are using.
  C. What happened – fall, heart attack, chemical spill.
  D. How many people need help.
  E. Condition of victims.
  F. Don’t hang up until asked to do so.
  G. Only persons currently licensed in administering CPR/FIRST AID should do so.
  H. Someone needs to meet medical personnel to bring to specific location.

TORNADO WARNING
- Stay informed when any severe weather is imminent.
- Get away from windows.
- Go to basement, inside hallway, or designated safety areas as shown above.
- Avoid places with wide-span roofs such as auditoriums, cafeterias, or large hallways.
- Get under a piece of sturdy furniture such as a workbench or heavy table or desk to hold on to it.
- Use arms to protect head and neck.
